## इब्जा उत्तर प्रदेश प्रतिनिधिमंडल की लखनऊ DM विशाख जी से अहम बैठक, ज्वैलर्स हितों पर हुई चर्चा

कल लखनऊ में इब्जा (IBJA) नॉर्थ इंडिया हेड श्री अनुराग रस्तोगी और उनकी टीम ने लखनऊ के डिस्ट्रिक्ट मजिस्ट्रेट श्री विशाख जी (IAS) से शिष्टाचार मुलाकात की। इस दौरान उत्तर प्रदेश में ज्वैलर्स समुदाय से जुड़े कई अहम मुद्दों पर विस्तार से चर्चा हुई।

मुख्य रूप से बैठक में शस्त्र लाइसेंस में ज्वैलर्स को प्राथमिकता देने, सभी प्रमुख सराफा बाजारों में AI-सक्षम सुरक्षा कैमरों की स्थापना, और साहूकारी लाइसेंस प्रक्रिया में आने वाली चुनौतियों जैसे विषय शामिल रहे।

इब्जा मैनेजमेंट कमेटी उत्तर प्रदेश ने भरोसा जताया कि इन चर्चाओं से ज्वैलर्स समुदाय के हितों की रक्षा और व्यापारिक गतिविधियों की सुरक्षा में उल्लेखनीय प्रगति होगी। DM श्री विशाख जी ने भी सकारात्मक रुख दिखाते हुए सभी बिंदुओं पर गंभीरता से विचार का आश्वासन दिया।

## India surpasses Japan to become 4<sup>th</sup> largest economy at \$4 tn; may soon surpass Germany to reach no.3

*Rising incomes, burgeoning middle class expected to fuel domestic consumption of jewellery*

India has surpassed Japan to become the world's fourth-largest economy, according to NITI Aayog CEO BVR Subrahmanyam, referencing IMF data. India is now a USD 4 trillion economy, trailing only the US, China, and Germany. India may soon surpass Germany and become the third-largest economy in the world in another 2, 2.5 to 3 years according to Subrahmanyam.

This is good news for Indian GJ sector: Rising incomes, a burgeoning middle class, and a youthful population are expected to fuel domestic consumption of gold, diamonds, and other jewellery, especially for weddings and festivals - sectors that already account for a significant share of demand. As India's economic status improves, jewellery will continue to be seen as both a status symbol and a form of financial security, further boosting local sales.

“BVR Subrahmanyam CEO - NITI Ayog stated “India may soon surpass Germany and become the third-largest economy in the world. It's only the United States, China, and Germany which are larger, and if we stick to, you know, what is being planned, what is being thought through, it's a matter of another 2, 2.5 to 3 years; we would become the third largest economy.”

# AUGMONT

## GOLD FOR ALL

Gold saw a strong increase last week, jumping about 4% as the dollar fell following U.S. President Donald Trump's warning to put 50% tariffs on European Union imports on July 9. This further shook the global economy and increased demand for safe-haven assets. Trump says he would impose 25% tariffs on Samsung and Apple devices.

The dollar saw its largest weekly percentage drop since early April last week, falling 2% and returning to 99 levels. The main issue affecting the dollar at the moment is the decline in trust in American policy. The Congressional Budget Office estimates the recently enacted US tax measure, which is now headed to the Senate, will cost close to \$4 trillion, escalating concerns about long-term fiscal instability. These worries about growing deficits and growing debt servicing costs are highlighted by Moody's recent lowering of the US credit rating.

The spending package is anticipated to be discussed by the US Senate and put to a vote before July 4 following the Memorial Day vacation on May 26. Markets may find it challenging to stage a consistent recovery if they continue to believe that the Senate will adopt the package with few modifications.

Since Moody's lowered the US credit rating late last Friday, raising worries about the nation's \$36 trillion debt burden and Trump's quest for tax cuts that may increase it by \$4 trillion, investor sentiment has been brittle.

Meanwhile, Gold received a further lift from rising international tensions. Risk aversion was exploited by the precious metal due to the lack of progress in Ukraine-Russia talks and growing concerns of a worsening Middle East conflict following reports of Israel increasing its strikes on Gaza and preparing to target nuclear facilities in Iran.

Headlines of the US trade talks will be closely examined in the interim. Safe-haven flows may continue to control financial market activity and pave the way for another move higher in gold prices if the US is unable to advance negotiations with important trading partners like the EU and Japan. Furthermore, the precious metal may continue to benefit from a further escalation of Middle East hostilities.

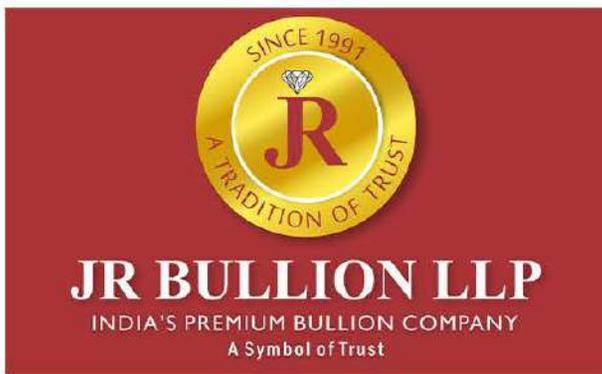

Gold prices are expected to trade in the range of \$3275 (~Rs 95000) and \$3375 (~Rs 96400) in the near term. Either side breakout or breakdown will give 2-3% movement. Silver is expected to continue its range-bound momentum from \$32 (~Rs 94000) to \$34 (~Rs 98000) going forward.

## National News Ahmedabad jewellers seek transparency in gold TRQ

Jewellers in Ahmedabad raised concerns over the opaque allocation process for gold import quotas under the India-UAE Comprehensive Economic Partnership Agreement (CEPA) for FY 2025–26. In a formal representation to the Directorate General of Foreign Trade (DGFT), the Jewellers' Association of Ahmedabad (JAA) urged the govt to publish clear eligibility criteria for tariff rate quota (TRQ) allotment and scrap the Rs 25 crore turnover threshold, which they say disadvantages smaller jewellers and distorts market competition.

Under the current TRQ application process, jewellers, bullion traders, and manufacturers were required to submit past turnover figures and pay a non-refundable Rs 1 lakh fee. However, many applicants said they were unaware of any turnover threshold at the time of applying in Feb.

Several applicants said they had no knowledge of the Rs 25 crore qualifying bar until results were announced. The issue gained further traction after the DGFT, in a meeting on April 29, disclosed that it received over 3,000 TRQ applications - a 253% rise over the previous year, but only about 1,400 were approved. Officials reportedly prioritised firms with "considerable business size" and "manufacturing capacity", a move that sparked calls for greater transparency

The India - UAE Comprehensive Economic Partnership Agreement (CEPA), signed in 2022, allows for duty concessions on select goods to enhance bilateral trade. Under this, India permits the import of up to 200 metric tonnes of gold annually from the UAE at a 1% duty discount - lower than the standard import duty - through a tariff rate quota (TRQ) mechanism. Jewellers, bullion traders, and manufacturers must apply to the Directorate General of Foreign Trade (DGFT) for TRQ certificates to access this concession. The quota is distributed based on eligibility criteria, which applicants say lacked transparency this year.

## Gold Jewellery Value Set to Rise 12–14% in FY26 Despite Volume Decline- ICRA

*Driven by rising gold prices and retail expansion, India's gold jewellery market will grow in value even as consumption volumes fall for a second consecutive year*

India's domestic gold jewellery consumption is expected to grow by 12–14% in value terms in FY2026, according to a new report by ICRA, even as consumption volumes are projected to decline for a second year in a row. This value growth is largely attributed to continued gold price appreciation, expanded retail presence, and increasing market consolidation in favour of organised players.

"This will be supported by continued gold price appreciation, planned retail expansion, and market share gains from the unorganised segment. A higher number of auspicious days in the fiscal is also expected to lend some support to demand, despite elevated prices and declining volumes," said Jitin Makkar, Senior Vice President and Group Head, ICRA.

In FY2025, gold jewellery consumption by value jumped 28%, spurred by a 33% surge in gold prices. A similar trend is anticipated in FY2026, with gold prices already trading about 20% higher than the FY2025 average. However, consumption volumes are expected to fall by 9–10% in FY2026, following a 7% decline in FY2025.

The report also highlights a notable shift in investor behaviour, with demand for gold bars and coins increasing 17% and 25% in FY2024 and FY2025, respectively. This reflects a growing preference for gold as a safe-haven asset amid global geopolitical and economic uncertainty. ICRA expects this demand to rise by another 10% in FY2026, with bars and coins projected to account for 35% of total gold demand.

Jewellery retailers may also see a modest improvement in profitability.

Operating margins are forecast to expand by 30 basis points to 7.2% in FY2026. However, net margin growth is likely to remain limited, constrained by higher financing costs linked to elevated Gold Metal Loan (GML) rates and increased working capital needs due to high gold prices and planned store expansions.

"Despite a projected 30 bps expansion in operating margins in FY2026, net margin expansion will remain limited within 10 basis points due to higher financing costs stemming from elevated GML rates and increased working capital borrowings driven by high gold prices and planned store additions," Jitin Makkar added.

## International NewsGold retreats as Trump delays EU tariffs: AUGMONT BULLION REPORT

# AUGMONT

## GOLD FOR ALL

- Gold saw profit booking as safe-haven purchasing eased after U.S. President Donald Trump announced he would postpone his intention to put 50% tariffs on imports from the European Union from June to July.
- To allow negotiators more time to establish a trade agreement, European Commission President Ursula von der Leyen requested the extension, which is why there has been a delay.
- In addition to the robust demand from central banks and institutional investors, the world is still adjusting to U.S. trade policies and geopolitical uncertainties, which should push demand for gold investments above current levels.

### Technical Triggers

- Gold prices are expected to trade in the range of \$3275(~Rs 95000) and \$3375(~Rs 96400) in the near term. Either side breakout or breakdown will give 2-3% movement.
- As suggested yesterday, Silver prices won't sustain above \$34. We saw reversal and profit booking at those levels. Consolidation in this range of \$32.5(~Rs 96000) and \$34(~Rs 99000) would continue in the near term.

WORLD SILVER  
— COUNCIL —

## ABOUT US

The World Silver Council is a market development organisation for the silver industry. Working within the investment, jewellery and technology sectors as well as engaging in government affairs, its purpose is to provide industry leadership whilst stimulating and sustaining demand for silver. With our unique insight into the global silver market, we see unrealised potential for silver across society. With world-class organisations, we intervene to create new possibilities and work to ensure silver mining is responsibly undertaken, with measurable economic benefit globally.

Based in India, the World Silver Council is a n organization whose members comprise the country's leading silver miners, dealers, bullion dealers and silver jewellery retailers and manufacturers.

The world of silver is dynamic. Its uses are widely-varied, and its desirability is resilient and enduring. Silver helps combat infections and is an essential element in bacterial control medicinally. It protects the wealth of individuals and nations alongside gold. It is a precious metal considered important for future revolutions in science and carries memories across generations and cultures.
